

Spreader Bar for Forklift

Spreader Bar for Forklift - Proudly operating since nineteen seventy four, ELME Spreader AB is the largest independent spreader producer around the world. They have been a devoted manufacturer of spreaders utilized for numerous applications like for instance the swop bodies, trailers and handling of containers.

Engineering is done in-house by way of utilizing the newest FEM tools and CAD systems. The ELME business currently has over one hundred twenty five staff members. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the world.

The ELME product collection offers spreaders meant for different container and trailer handling operations. Some of their inventory consist of: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders in addition to a huge variety of additional parts.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they made more than 1150 spreaders by means of making use of top quality components to be able to guarantee dependability and top standards while offering competitive prices. Major features of ELME comprise design simplicity, market feedback and ground-breaking modular spreader concept.
