

Electrical Parts for Forklifts

Forklift Electrical Parts - Lift trucks may be purposely marked for use in hazardous sites. A labeled forklift indicates the design has met the least standards of ANSI/UL 558 utilized for engine powered forklifts or ANSI/UL 583 used for electric trucks for the type of label placed.

Applications for marked trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Check with your local insurance provider and Fire Marshall for further info on the permitted uses of industrial powered forklifts in your application.

If the certain forklift satisfies the outlined criteria, labels can be placed. A labeled forklift will show the type of designation put on the nameplate and will have a correctly corresponding label attached.
